ECHR.

REGARDING CASE NO. 67078/10.

As the European Court of Human Rights now has denied the people of Europe their right to a human rights based defence against the drug laws, I would like to see the evidence this decision was based upon.

There is mounting evidence everywhere these days that our drug policies are in grave violation of human rights law and I have presented the Court plenty of documentation that confirms this fact. I therefore find Mr. de Gaetano's verdict to be a very strange decision, and so I hereby request to see the case documents presented to the judge (in English) in accordance to Rule 33 and ECHR Article 40.2.

Yours Sincerely,

Roar Mikalsen.
